

Energy & Renewable Energy Resources Posters Worksheet

Using the energy and renewable energy resources posters, fill in the table using the phrases below.

Renewable energy	Non-renewable energy

We are running out of this.

This will not run out.

*We get this energy from the wind
and the sea.*

Coal, oil and gas give us this.

*We get this from fuels which were made
a long time ago.*

It is often difficult to use this.

Type of renewable energy

Find the renewable energy resources and list them in the table provided

Type of renewable energy	How it works
	This uses the energy from the Sun.
	When the tide goes in and out it gives us this energy.
	This uses the energy of waves.
	This uses the energy from the wind.
	This uses rotting plant and animal materials.
	This uses the heat from deep inside the Earth.
	This uses the energy from falling water.
